Jacinth G

Salem, Tamil Nadu
+91 9488766377 jacinthg03@gmail.com Jacinth-g jacinthg

AI & Data Science undergraduate with hands-on experience in Machine Learning, Software Testing, and Python-based development. Strong foundation in SDLC, data analysis, and predictive modeling with real-world project exposure.

EDUCATION

PAAVAI COLLEGE OF ENGINEERING **JUN 2021 - May 2025**
*B. Tech, Artificial Intelligence and Data Science - **CGPA – 8.24*** *Namakkal, India*
Notre Dame of Holy Cross **JUN 2020 - MAR 2021**
*AISSCE – CBSE XII- **Percentage – 84.2%*** *Salem, India*

PROJECTS

Automated Street Light | Relay Modules and IR Sensors **NOV 2022**

- Designed an energy-efficient IoT system using IR sensors and relay modules to automate street lighting, reducing energy consumption by approximately 30%.

Stock Market Price Prediction using Machine Learning | LSTM & ARIMA **MAY 2025**

- Developed a predictive financial model utilizing LSTM (Long Short-Term Memory) and SVM algorithms to forecast stock price trends with high accuracy.
- Processed historical market data using Pandas and NumPy for feature engineering, identifying key volatility indicators to improve model performance.

Bervin - Integrate Multiple AI Models into Chats | MCP **AUG 2025**

- Architected a unified chat interface integrating multiple AI models using the Model Context Protocol (MCP).
- Engineered collaborative features such as team sessions and group AI-powered chats to enhance user productivity. Implemented Python-based API integrations to manage real-time data flow between AI agents.

INTERNSHIP

Android Developer virtual Internship **JAN 2024 – MAR 2024**
Android Developer

- Debugged application errors and optimized performance, resulting in a smoother user experience.
- Integrated third-party APIs to enhance application functionality and manage data retrieval efficiently.

Software Testing Intern- Jivrus Technologies **JUL 2025 – PRESENT**
Software Tester *Bengaluru, India*

- Collaborate with the development team to document bugs and verify fixes, strictly adhering to the Software Development Life Cycle (SDLC).
- Execute comprehensive manual test cases to identify software defects

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL, HTML, CSS
Software Testing: Manual Testing, Test Cases, Test Scenarios, Bug Tracking, SDLC, STLC
Data Science & AI: Machine Learning, Deep Learning, LSTM, SVM

EXTRACURRICULAR

KSR College of Engineering **APRIL 2024**
Paper presentation – Presented a paper on LiFi Technology and secured 2nd prize *Namakkal*
Bannari Amman Institute of Technology **APRIL 2024**
Hands-on Training on Deep Learning *Erode*

CERTIFICATIONS

- Data Analytics with Python- NPTEL
- Intro to Data Science - INFOSYS
- Data Science tools - INFOSYS
- Intro to 3D Printing and CAD Modelling – NASSCOMM
- Introduction to Augmented reality - Coursera
- Cloud Computing – IBM Cognitive Class
- Software Engineering – INFOSYS
- Cyber Security – Coursera (University of Maryland)
